PROFESSIONAL SUMMARY

I am a dedicated and self-motivated student with a strong interest in technology and real-world problem solving. I enjoy learning new concepts and applying them through practical projects. My academic journey has helped me build a foundation in programming, machine learning basics, and web technologies. I have actively participated in technical presentations and volunteer activities, which improved my confidence and communication skills. I am looking for an opportunity where I can grow technically while contributing positively to the organization.

EDUCATION

Intermediate (MPC) – Venus junior college ongole.

Bachelor's Degree (Pursuing)—Rise Krishna Sai Prakasam Group of Institutions- 2nd year

TECHNICAL SKILLS

- Python Programming (Basics)
- Machine Learning Fundamentals
- HTML & CSS
- MS Office (Word, Excel, PowerPoint)
- Git & VS Code
- Problem Solving & Logical Thinking
- Team Collaboration & Communication

PROJECTS

- Smart Temperature and Humidity Monitoring System: Developed a real-time temperature and humidity monitoring system using sensors and IoT technology.
- Weather Api Fetcher: Built a responsive Weather API Fetcher using HTML, CSS, and JavaScript to provide live weather updates.

CERTIFICATIONS & PARTICIPATION

- Participated in Illuminate Workshop and received a certificate of participation .
- Completed certification in CSS

ACHIEVEMENTS

Participated in University-level netball competition demonstrating discipline, teamwork, and competitive spirit. Participated in AI CHATBOT WORKSHOP organized by the IEEE computer society Student Branch and Education Society Branch chapter and received a certificate.
